

## **Matthias Hübner Appointed as New Managing Director of the Green and Sustainable Finance Cluster Germany e.V.**

The board of the Green and Sustainable Finance Cluster Germany e.V. (GSFCG) has appointed Mr. Matthias Hübner as the new Managing Director and special representative of the association, effective October 10, 2024.

Mr. Hübner is a widely respected expert in the field of sustainable finance and previously supported GSFCG as a member of the Standing Committee from 2021 to 2023.

"We are very pleased to have won Mr. Hübner for the Cluster. He brings extensive management expertise from his time as a partner in corporate consulting and from his leadership at a sustainability data provider," said Claire Kütemeier, Chair of the Cluster's Board and Head of the Financial Centre Department at the Hessian Ministry of Economic Affairs.

Matthias Hübner is also looking forward to the collaboration: "The transformation towards a sustainable economy is a monumental task ahead of all of us. Sustainable finance will be a crucial competitive factor for the future of our financial centre. The Cluster plays a vital role as a platform for networking financial market participants with each other, as well as with representatives from the real economy, politics, and science. I am excited to further develop the Cluster together with existing and new members, sponsors, and partners."

Mr. Hübner will be officially introduced during the Sustainable Finance Summit on October 10.

The "Green and Sustainable Finance Cluster Germany" is an alliance of financial market participants, politics, and research aimed at establishing effective financial market structures to support the transformation towards a sustainable financial centre in Germany.
